

“Assi-sagoma” system

The vehicles are classified according to the “Assi-Sagoma” system, which distinguishes between five classes: two for vehicles with two axles and three for vehicles or vehicle combinations with three or more axles, according to the table below:

Class A

2 axles - Height ≤ 1.3 m (measurement at the front axle) / Only scooters with a cylinder capacity over 150 cc are allowed on the motorway.

Class B

2 axles - Height > 1.3 m (measurement at the front axle)

Class 3

3 axles

Class 4

4 axles

Class 5

5 or more axles
