Awareness campaign on road safety in cooperation with the State Police

HUMAN FACTOR

93 TIMES OUT OF 100

Just a moment?
It may be the last one.

Most accidents happen because drivers are doing something else. While you’re glancing at your mobile phone, everything around you changes: in just 3 seconds you drive more than 100 metres on the motorway.

Protect yourself and others: when you drive, just drive.

Autostrada del Brennero SpA and the State Police recommend never using your mobile phone while driving.
